

ROLE OF THE BOARD

The general mandatory powers and duties of the Board are defined in Title 18A of New Jersey statutes. Other sections of the statutes state or imply that a local board of education has full power to operate the local public schools as it deems fit in compliance with state and federal mandates and pertinent laws of the municipality. The Board functions only when in session.

The Board shall act as the general agent of the State in carrying out the will of the people of this District in the matter of public education. It shall establish educational goals for the children of this district and supervise a program of education designed to meet those goals. The Board shall be responsible for enforcing mandatory laws and shall consider and accept or reject the provisions of permissive laws. In all cases where State law does not provide nor prohibit, the Board shall consider itself the agent responsible for establishing, maintaining and appraising the public education activities of this school district.

The Board shall be responsible for the operation of the School District but shall delegate the administration of the District to the Superintendent who shall be appointed by a recorded roll-call majority vote of the full Board.

The Board of Education sees these as its required functions:

A. Policy oversight

The Board is responsible for the development of policy and for the employment of a Superintendent who shall carry out its policies through the development and implementation of regulations. The Board is responsible for evaluating the effectiveness of its policies and their implementation. This includes setting and evaluating goals in areas of District operations.

B. Educational planning

The Board is responsible for requiring and acquiring reliable information from responsible sources that will enable it and the staff to work toward the continuing improvement of the educational program.

C. Provision of financial resources

The Board has major responsibilities for the adoption of a budget that will provide the wherewithal -- in terms of buildings, staff, materials, and equipment -- to enable the school system to carry out its functions.

D. Interpretation

The Board is responsible for providing adequate and direct means for keeping the local community informed about the school and for keeping itself and the school staff informed about the wishes of the public. All planning, including that which is related to the budget and that which is not, needs to be interpreted to the public if citizens are to support the school program.

The Board believes that, by diligently exercising these functions, it will be able to provide the best educational opportunities possible for our children within the financial limitations set by the community.

ROLE OF THE BOARD (continued)

The Board shall exercise its powers through the legislation of bylaws and policies for the organization and operation of the School District.

The Board shall be responsible for the operation of the school but shall delegate the administration to the Superintendent, who shall be appointed by a recorded roll-call majority vote of the full Board.

The Board may hear appeals in complaints and in grievance and disciplinary actions as defined in these policies, the negotiated agreements and in the law.
